Dear **Hiring Manager,**

I am writing to express my interest in the internship opportunities at your organization. As a **Business student** at **RMIT University Vietnam**, I am passionate about understanding consumer behavior, and contributing to business growth. Through experiences across marketing, operations, finance, and student leadership, I have developed a strong foundation in both analytical and execution-oriented work that I am eager to apply in an e-commerce or business development environment.

What particularly attracts me to this opportunity is the chance to understand how businesses identify growth opportunities, work with partners, and translate data and market insights into action. I enjoy working at the combination of **data and people**-understanding performance, coordinating with stakeholders, and ensuring that projects are executed effectively.

In my previous role as a **Sales & Marketing Intern at Chan Thien My (CTM)**, I supported campaign coordination, content execution, customer engagement, and performance tracking across **Facebook, TikTok, LinkedIn**, and the company website. I also coordinated webinars and information sessions and contributed to sales activities. This experience strengthened my understanding of customer engagement and showed me how marketing activities need to be connected with performance and business objectives.

Additionally, as a **Finance Intern at Michelin Vietnam**, I have further developed my analytical and operational skills through financial data and document review, reporting support, and cross-functional coordination. I have also supported a **Green Finance project involving 12 vendors**, requiring me to consolidate information, coordinate with stakeholders, and organize data to support business decisions. Working in a structured corporate environment has strengthened my attention to detail, commercial awareness, and ability to manage multiple priorities while maintaining accuracy.

Beyond professional experience, my role as **Chief Financial Officer of RMIT Student Council** strengthened my ownership and stakeholder management skills. I managed an annual budget exceeding **VND 500 million**, coordinate with **50+** sponsors and stakeholders, and support large-scale student initiatives such as Club Day, which **attracts over 2,500 participants per semester**. The experience taught me to balance financial considerations with project objectives, timelines, and stakeholder expectations - which I believe contribute to business development and e-commerce operations.

I am confident in my ability to work with **Microsoft Excel, Google Workspace, and digital tools**, and bring strong communication, analytical, organizational, and problem-solving skills. More importantly, I am a proactive learner who enjoys taking ownership, working with different stakeholders, and turning information into practical actions. I would be excited to bring this combination of **commercial curiosity, analytical thinking, and hands-on execution** to your team while continuing to develop my career in e-commerce and business development.

Thank you very much for your time and consideration. I really appreciate the opportunity to discuss how my background and skills can contribute to your team.

Best regards,
Nguyen Ngoc Mai

Ho Chi Minh City

HELLO, I'M NGOC MAI !

A Business student with experience across finance, sales, marketing, operations, and stakeholder management. I like turning business information into practical action.

I connect data, people, and execution.

MY LEARNING PATH

CTM TRANSLATION & CONSULTING
Marketing & Sales Intern

I learned: To look beyond the output and understand how people respond to it.

RMIT STUDENT COUNCIL
CFO & Sponsorship Coordinator

I learned: Check, track, and communicate carefully.

RMIT CAREERS & INDUSTRY RELATIONS
Events, Operation & General Assistant

I learned: Quality not only about getting task right - it is about making the process reliable to repeat

MICHELIN VIETNAM
Finance Project Management Intern

I learned: Turn complex information into clear decisions, and follow projects through from analysis to execution.

→ ***Ready for what's next!***

SELECTED WORK

Evidence, not task lists.

Few projects that show how I work when there numbers to understand, people to coordinate, and something that needs to get done.

01. FINANCE PROJECT MANAGEMENT INTERN

MICHELIN VIETNAM

12+ vendors coordinated

15+ proposal evaluated

4+ internal departments

Green Finance - from vendor exploration to execution

The challenge: Michelin was exploring solar energy solutions for stores and dealerships, requiring multiple vendor inputs and internal coordination to support the project decision.

What I did: I coordinated with **12+ vendors** and **4+ internal departments**, evaluated **15+ proposals,** consolidated information, and supported discussions that led to contract finalization for solar installation across Southern Vietnam.

02. EVENTS, OPERATIONS & GENERAL ASSISTANT

RMIT CAREERS, ALUMNI & INDUSTRY RELATIONS

2,000+ alumni

150+ industry partners

1,500+ student records

Working with people at scale

The challenge: Michelin was exploring solar energy solutions for stores and dealerships, requiring multiple vendor inputs and internal coordination to support the project decision.

What I did: I coordinated with 12+ vendors and 4+ internal departments, evaluated 15+ proposals, consolidated information, and supported discussions that led to contract finalization for solar installation across Southern Vietnam.

03. CFO & SPONSORSHIP COORDINATOR

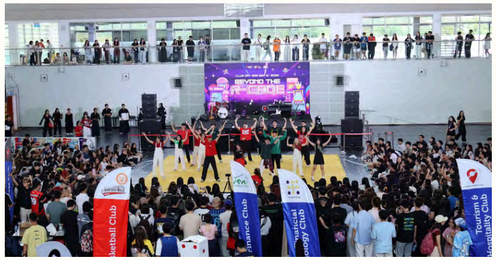

RMIT STUDENT COUNCIL

The challenge: Large student initiatives required funding, external partnerships, budgets, and coordination across stakeholders while keeping commitments on track.

What I did: I managed a **VND 500M+** annual budget, coordinated sponsors and stakeholders, and tracked sponsorship commitments and project milestones.

150+
industry partners

150+
industry partners

04. SALES & MARKETING INTERN

CTM TRANSLATION & CONSULTING

The challenge: At CTM, attracting prospective students meant connecting digital campaigns, customer follow-up, and sales activity to business results.

What I did: I supported customer engagement and sales, coordinated campaigns across **Facebook, TikTok, LinkedIn**, and the **website**, and tracked audience performance.

15%+
monthly revenue contribute

5+
monthly webinar

WHAT I BRING

NUMBERS, PEOPLE, EXECUTION

Understand the numbers

I'm comfortable with **Excel**, **Google Workspace**, financial data, performance tracking, and business analysis.

Turn information into action

I enjoy taking scattered information, figuring out what matters, and turning it into something a team can use.

Work with people

I've worked with vendors, sponsors, students, alumni, industry partners, and internal teams with different priorities.

Follow things through

Whether it is a tracker, an event, a vendor project, or a customer follow-up, I like having ownership until the work is done.

WHERE I WANT TO GO NEXT

I'm looking for a role where I can work close to customers, partners, and business decisions - while using data to understand what is working and what could work letter.

Curious | Quick learner | Numbers + People | Ownership

What I bring on day one: curiosity, a willingness to learn quickly, comfort with both numbers and people, and the habit of taking ownership rather than waiting to be told what to do.

OUTSIDE WORK

A little more about me.

“I’m happiest when I’m exploring something I don’t know yet.”

LET’S CONNECT

I'm open to the next good problem.
